Subject: Don't delay public hearings on net metering (PSC Docket #2005-385-E)

Sep 24, 2013

Jocelyn Boyd  
101 Executive Center Drive, Suite 100  
Columbia, SC 29210

Dear Boyd,

I respectfully disagree with the decision of the Public Service Commission to indefinitely delay the public hearing on net metering (PSC Docket #2005-385-E) that was supposed to have been held this past September 12th, 2013.

**QUESTION:**

With over 220 days of sunshine annually, why has South Carolina dragged its feet in implementing SOLAR energy?

**ANSWER:** Probably because SCE&G has a too-profitable monopoly on energy sales. It is long past time to allow competition and long past time to bring our state into this century with lower costs, healthier, and climate saving alternative energy.

After all, the PSC exists as a public body to best advance its own motto: "a fair, open, and efficient regulatory process that promotes cost-effective and reliable utility services." I hope that the Commission reconsiders streamlining its hosting of an open public discussion about net metering, in order to so carry-out its own vital role as a public service entity. Thank you for your consideration of this request to re-set a date to have this public discussion in the near future.

Sincerely,

Ms. Marjorie Trifon  
5822 N Trenholm Rd  
Columbia, SC 29206-1604  
(803) 782-0765
